## Detail Introduction :

The 1.5 Ton Mini Excavator with CE certification is the perfect machine for small to medium-scale excavation projects. This compact yet powerful excavator is designed for homeowners, landscapers, and small construction companies who need reliable equipment for tasks such as digging trenches, lifting materials, or grading land. With CE certification, it meets European safety and quality standards, ensuring peace of mind for the user. The hydraulic system provides smooth operation, making it easy to dig, move soil, or handle materials with precision. Its small size allows it to work in confined areas where larger machines can't operate, making it an ideal choice for urban or residential projects.

### Product features

| Feature                       | Description   |
|-------------------------------|---|
| <b>1.5 Ton Capacity</b>       | Offers the perfect balance between power and maneuverability for home and small business use. |
| <b>CE Certified</b>           | Ensures compliance with European standards for safety and quality.                            |
| <b>Hydraulic System</b>       | Powerful hydraulic system for enhanced digging and material handling.                         |
| <b>Compact Design</b>         | Small size makes it ideal for tight spaces and residential use.                               |
| <b>User-friendly Controls</b> | Easy to operate, making it suitable for both professionals and DIY users.                     |

### Product advantages

**Reliable and Safe:** The CE certification assures customers of the product's safety and compliance with industry standards.

**Efficient for Small Tasks:** The 1.5 Ton capacity is perfect for small-scale residential projects without sacrificing power.

**Compact and Powerful:** While compact, this excavator offers the power needed for digging and trenching efficiently.

### Product applications

| Application            | Description   |
|------------------------|---|
| <b>Home Excavation</b> | Ideal for digging small trenches, foundations, or holes in residential areas. |

| Application        | Description  |
|--------------------|--|
| Landscaping        | Great for landscaping tasks like moving soil, creating garden beds, or leveling land.          |
| Small Business Use | Perfect for small business owners who need a reliable machine for occasional excavation tasks. |
